FACULTY OF MEDICINE.

—•••—
REV. ISAAC FERRIS, D.D., LL.D.,

CHANCELLOR OF THE UNIVERSITY.

VALENTINE MOTT, M.D., LL.D.,

EMERITUS PROFESSOR OF SURGERY AND SURGICAL ANATOMY, AND EX-PRESIDENT OF THE FACULTY.

MARTYN PAINE, M.D., LL.D.,

PROFESSOR OF MATERIA MEDICA AND THERAPEUTICS.

GUNNING S. BEDFORD, M.D.,

PROFESSOR OF OBSTETRICS, THE DISEASES OF WOMEN AND CHILDREN, AND CLINICAL MIDWIFERY.

JOHN W. DRAPER, M.D., LL.D.,

PROFESSOR OF CHEMISTRY AND PHYSIOLOGY.

ALFRED C. POST, M.D.,

PROFESSOR OF THE PRINCIPLES AND OPERATIONS OF SURGERY, WITH SURGICAL AND PATHOLOGICAL ANATOMY.

WM. H. VAN BUREN, M.D.,

PROFESSOR OF GENERAL AND DESCRIPTIVE ANATOMY.

JOHN T. METCALFE, M.D.,

PROFESSOR OF THE INSTITUTES AND PRACTICE OF MEDICINE.

—
T. C. FINNELL, M.D.,

Demonstrator of Anatomy.

ALEXANDER B. MOTT, M.D.,

Prosector to the Emeritus Professor of Surgery.

J. HINTON, M.D.,

Prosector to the Professor of Surgery.

—
JOHN W. DRAPER, M.D., LL.D.,

PRESIDENT OF THE FACULTY.

1858-59

SESSION, 1858-9.

The Session for 1858-9 will begin on Monday, Oct. 18, and will be continued until the 1st of March.

COURSE OF INSTRUCTION.

The Courses of Lectures given will be on Anatomy—General, Descriptive, Surgical, and Pathological; Principles and Operations of Surgery; Materia Medica and Therapeutics; Institutes and Practice of Medicine; Obstetrics, the Diseases of Women and Children, with Clinical Midwifery; Chemistry and Physiology; Clinical Surgery; Clinical Medicine; Clinical Lectures on the Diseases of the Genito-Urinary Organs; Clinical Lectures on the Diseases of Women and Children; Clinical Lectures on Physical Diagnosis.

CLINICAL INSTRUCTION.

CLINICAL INSTRUCTION constitutes a prominent feature in the plan of education; and the unlimited resources of New-York enable the Faculty to carry out the object which, to the practitioner, whether in surgery, medicine, or obstetrics, is the great end of medical study—namely, *familiarity with diseases at the bed-side.*

1st.—*An Obstetric Clinic for the Diseases of Women and Children*, on every Monday, from 2½ to 4½ o'clock P.M., by Prof. BEDFORD. This clinic was first established by Prof. BEDFORD, in October, 1850, and it has met with constantly-increasing success. From the period of its first organization to the present date, there have been presented to the classes of the University more than eleven thousand cases of the most interesting diseases of women and children. Every variety of disease incident to women and children is thus brought before the pupils, and the fullest opportunity afforded of studying their maladies.

2d. *Surgical Clinic*, every Tuesday, from 2½ to 4½ o'clock P.M., by Prof. MORT. Almost every variety of surgical cases has been presented to the class, and many operations performed.

3d. *Medical Clinic* every Wednesday, from 2½ to 3½ o'clock P.M., by Prof. METCALFE. This clinic is full of interest, from the great number of miscellaneous cases of disease. The Clinical Class is divided into sections, each of which examines, at leisure, in a room provided for the purpose,

the lungs, heart, etc., of patients, a written record of whose cases has been previously dictated before the class by the Professor. This serves as a guide during the examination. The Professor gives, annually, two prizes for the best two written reports of cases occurring at the clinic.

4th. *Surgical Clinic, with the Diseases of the Genito-Urinary Organs*, every Wednesday, from 3½ to 4½ o'clock P.M., by Prof. VAN BUREN. This clinic will, independent of its general surgical practice, afford ample opportunities to study that interesting class of diseases appertaining to the genito-urinary organs. Cases of syphilis, exhibiting every variety of that interesting disease; of gonorrhœa, gleet, stricture of urethra, fistula in perinæo, incontinence of urine, spermatorrhœa, impotence, hydrocele, varicocele; and various diseases of the testicles and of the rectum—have been exhibited to the class.

5th. *Surgical Clinic* every Saturday, from 11 A.M. to 1 P.M., by Prof. POST. Many cases of interest have been prescribed for during the year, and numerous operations have been performed before the Class. Interesting surgical cases have been placed under the care of advanced students.

HOSPITALS, INFIRMARIES, DISPENSARIES.

1st. THE NEW-YORK CITY HOSPITAL—of which Professors MOTT and POST are Consulting Surgeons, and Professor VAN BUREN an Attending Surgeon—is one of the most extensive charities in this country. It is situated in Broadway, and is open daily, throughout the year, (Sundays excepted,) to the students, at 1 o'clock P.M., in winter, and 12 M., summer, when they are permitted to witness all the surgical operations, and to see the medical practice, under the direction of the surgeons and physicians in attendance. The Library, which is annually increased, consists of *five thousand* volumes of the most valuable works on medicine, surgery, and the collateral sciences. The Hospital Museum consists of the most interesting specimens obtained from the *post-mortem* examinations made in the Institution, and to which examinations the students are admitted. Clinical instruction is given daily by the attending physicians and surgeons. Surgical operations are almost of daily occurrence. The lectures at the University are so arranged as to allow sufficient time for daily attendance at the Hospital. The hospital-ticket has been made free and entitles the pupil to attend all the lectures, visit the wards daily, the museum, etc. The number of patients treated in this Institution during the past year was more than 3000. Three Graduates are appointed to the station of Assistants to the House-Physicians and House-Surgeons, once in eight months, at the City Hospital; and ten Assistants are added

to the resident corps at Bellevue Hospital, in the months of April and October.

2d. BELLEVUE HOSPITAL.—This is an extensive charity, and presents extraordinary facilities for the study of disease. Prof. METCALFE is an Attending Physician. The number of patients admitted during the past year was about 6000. Clinical lectures daily throughout the year, and the *post-mortem* examinations are witnessed by the students. A fee of five dollars is charged.

3d. EYE AND EAR INFIRMARY.—This Institution is free of charge, and presents ample opportunity for showing diseases of the eye and ear. Clinical lectures, with operations, three times a week.

4th. DISPENSARIES OF THE CITY.—These charities, which afford a wide field for practical observation, are also without charge. Some idea may be formed of the value of these Dispensaries to medical science, when it is stated that every year more than 80,000 patients are treated by the physicians and surgeons in attendance. In these Institutions, the diseases are arranged into distinct classes—such as diseases of *the head, chest, abdomen, extremities*; fevers, eruptive diseases, etc. Auscultation, percussion, etc., may be practised to any extent.

PRACTICAL ANATOMY.

The Act of the Legislature of New-York, legalizing dissection, has had the effect of removing many of the obstacles which have in past years, surrounded the study of Practical Anatomy. The supply of material, now no longer obstructed by legal penalties, is ample and constant; and the Faculty trust that their efforts in securing the passage of this Act will have the effect of giving a renewed impulse to Anatomical studies. Subjects will be furnished at the usual rates, which are less than the actual cost.

The period during which students will be admitted to the dissecting-room will occupy about five months, commencing in October, and terminating on the first day of March following. During the month of October, the room will be open from 8 o'clock A.M. to 5 o'clock P.M., when the Demonstrator of Anatomy will be in regular attendance. During the months of November, December, January, and February, the hours will be from 8 o'clock A.M. to 10 o'clock P.M. The students, on the payment of the Demonstrator's fee, (five dollars,) will be entitled to all the privileges of the dissecting-room, and will likewise be furnished with soap and towels for washing. No extra charges will be made, except for the injection of subjects, and it will always be optional with the students to have them injected or not.

MUSEUMS, APPARATUS, ETC., ETC.

The Anatomical and Surgical Museums are rich in preparations of practical value. They contain the extensive collections of Professors MOTT, BEDFORD, POST, and VAN BUREN.

The Professor of Chemistry has procured a chemical and philosophical apparatus, adapted to the illustration of a complete course of general and medical chemistry. He is constantly adding to this collection, and is in possession of the requisites for thorough instruction in his department.

The collection of instruments for the surgical chairs includes every thing that is valuable, embracing all the recent improvements.

The Professor of Materia Medica and Therapeutics has collected an herbarium of the choicest specimens. The collection in materia medica is also very complete. In addition, he possesses an extensive collection of drawings, all made under his own immediate supervision. These paintings are executed upon an enlarged scale, and are accompanied by other medical floras, representing the plants of their natural size. The Professor has also added to the collections his cabinet of minerals.

The collection of preparations belonging to the Professor of Obstetrics, together with a complete apparatus for the illustration of every portion of his course, will enable him to be thorough in his demonstrations.

Catalogues of the Mott Museum can be had of the Janitor.

MOTT-MEDALS.

Three Medals will be given to Candidates for Graduation, as follows :
ONE OF GOLD, ONE OF SILVER, ONE OF BRONZE.

The *Gold medal* to the candidate who shall prepare the best dried Anatomical or Anatomico-Surgical preparation.

The *Silver medal* to the second best of that description.

The *Bronze medal* to the candidate who shall furnish the best book of recorded cases, and remarks of the Professor of either of the Surgical Clinics.

Candidates for Graduation only shall compete for these Medals.

The preparations shall belong to Dr. MOTT's Museum, be labeled with the name of the maker, and entered on the catalogue.

The volume of cases shall also belong to, and be deposited in, the Museum.

One of the Faculty will be associated with Dr. MOTT in the adjudication of the Medals.

The Medals to be announced by the Chancellor, and presented to the successful candidates, at the Spring Commencement of the College.

The Medals not to be awarded except the specimens presented are of sufficiently good character.

Regulations for the Terms of Lectures, Etc.

REQUISITES FOR GRADUATION.

THE Examination for the Degree will commence about the first of March, and will be continued daily until the candidates shall have been examined.

The following are the requisites for the diploma :

1. The candidate must be 21 years of age.
2. He must have attended two courses of medical lectures ; one of which must be delivered in the medical department of the University of New-York.
3. The candidate must have studied medicine for three years, (the terms of attending lectures being included in these,) under the direction of a respectable medical practitioner.
4. He must write a medical thesis, either in the English, Latin, or French language.

Two Commencements take place annually in the University, at either of which candidates who have complied with the above requisitions may graduate.

The first takes place early in the month of March, and the other about the end of June.

FEEES FOR THE WINTER COURSE.

| | |
|--|-------|
| Full course of Lectures, | \$105 |
| Matriculation Fee, | 5 |
| Fee for Instruction by the Demonstrator, | 5 |
| Graduation Fee, \$30. | |

BENEFICIARY FOUNDATION.

For the purpose of assisting meritorious individuals, the Faculty will receive, annually, a limited number of beneficiaries, who will be required to pay \$20 each towards the expenses of the Institution, and the matriculation fee. The sons of physicians and clergymen, other things being equal, will be considered as having a preferred claim. Those who are desirous of availing themselves of this foundation will present to the President of the Faculty, during the summer, satisfactory documents showing them to be persons of good moral character, and of appropriate elementary education, and in circumstances which require this assistance.

SPRING, SUMMER, AND AUTUMN COURSE OF LECTURES.

The Faculty, with a view of increasing the facilities for medical education, without increasing its expense, instituted in 1852, a spring, summer, and autumn course of lectures, which will commence the present year on the 22d day of March, and be continued to the 18th day of October, when the usual winter lectures will be resumed. These lectures will be delivered partly by the Faculty, and partly by the following gentlemen :

T. C. FINNELL, M.D., on Pathological Anatomy.
T. GAILLARD THOMAS, M.D., on Obstetrical Operations.
P. A. AYLETT, M.D., on Physiology.
WILLIAM R. DONAGHE, M.D., on Surgical Anatomy.
GODFREY AIGNER, M.D., on Medical Botany.

Students who have attended the winter course of lectures will be admitted to the spring, summer, and autumn course, *free of charge*. Those who have not attended the winter course, will be admitted on payment of the matriculation fee and \$25; and should they decide on becoming pupils of the University for the winter course ensuing, the \$30 thus paid will be credited to them on taking out their tickets for that course. The students will, therefore, gain in this manner seven months' instruction, free of cost.

Graduates who may have attended the optional course, will have conferred on them a certificate of honor, as an evidence of their having pursued a fuller course of medical instruction than that usually followed by students.

BOARDING.

Good board can be obtained in the vicinity of the College at a moderate price.

N. B.—Students, on arriving in the city, will call at the College, No. 107 *East-Fourteenth Street*, between Irving Place and Third Avenue, and inquire for the Janitor, Mr. POLMAN, who will provide them with boarding-houses.

Letters may be addressed to Professor DRAPER, President of the Faculty, University, New-York.
